

# The Central Model School Goes Green

Do you remember we registered to become a Green School? Well, we've all been working very hard and on Friday March 7<sup>th</sup> we submitted our application to the Green Schools Office of An Taisce.

Here are some of the things we've been doing in preparation for the application.

Meet some of our Green Schools Committee

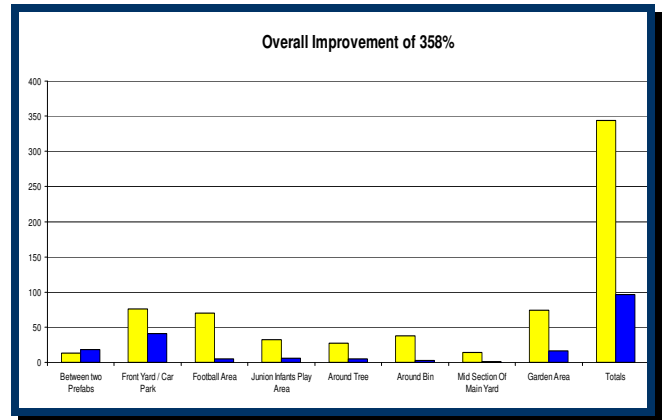

Senior Infants compost fruit, and green tissues. Aren't they great children!

And Look at our leaf mould cage.

We did two Litter Surveys - look at the graph to see how we've improved!! There is hardly any litter in the yard now. Well done to all the children in the school.

Litter in May 07 | Litter found on 2<sup>nd</sup> Survey

## Poster Competition

We had an anti-litter poster competition. You are welcome any time to come and see our work.

## What Now?

### Will we get a flag?

First an assessor will come to the school to check that we are green.

The assessor will decide whether to award the Green flag.

Our Green Schools Action Day was a great success.

- Junior Infants went on a parade. 🍌
- First Class did a clean-up of the yard. 🍌
- Senior Infants planted potatoes. 🍌

Watch this space for Green School news.

## What can you do to help?

Please put any litter in the bin.

Please do not smoke or throw cigarette butts inside the school gate.
